

Rice Krispie Treats

Makes 6 Servings

Preparation: 5 minutes , Cook Time: 5 minutes

Yield: 8x8" square pan

1/4 cup butter
1 teaspoon vanilla extract

3 cups marshmallows
4 cups Rice Krispies® cereal

Line a 8"x8" square pan with parchment paper. Set aside.

In a large non stick pot, melt butter on medium-low heat. Add the marshmallows and heat, stirring frequently, until almost all the way melted but not quite.

Add in vanilla and stir to full incorporate.

Take the mixture off heat and stir in cereal until coated

Pour mixture into prepared pan and press down evenly. (I use the back of a rubber spatula but you can use your hands if you want)

Press mixture down firm enough that the bars will hold together but not too firm or they will be too solid when they come to room temperature.

Remove the parchment paper and rice krispies from the pan, then cut into squares.
